

CONCRETE BLOCK ■ CEMENT ■ BRICK ■ STONE ■ ANY POROUS SURFACE

SOLUTION B+

TOUGH ON GRAFFITI AND SOFT ON THE ENVIRONMENT

IMPROVED AND EVEN MORE ECOLOGICAL FORMULA

- Solution B+ cleans concrete block, cement, brick, stone and any porous surface. Do not use on painted surfaces
- A water based ecological detergent, biodegradable, without harsh solvents, to remove graffiti spray paint on porous surface

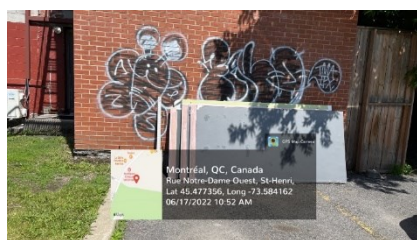

Prevention

- Wear protective gloves and clothing.
- Wear eye or face protection.
- Wear a mask in enclosed areas.
- Wash hands thoroughly after handling.
- Contaminated work clothing should not be allowed out of the workplace.

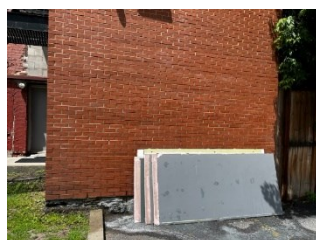

Consult the product MSDS.

DIRECTION OF USE

1. Thoroughly stir the product and use in the pure state: do not dilute.
2. Apply **Solution B+** to the graffiti using a garden sprayer with a minimum pressure of 20 psi.
(See website: chapinmfg.com/collection/sprayers for Chapin Industrial metal).
3. Activate with a nylon brush.
4. Leave on for 15 to 60 minutes (depending on temperature), reapply a thin layer of **Solution B+** (step 2) and wait a few minutes.
5. Rinse with hot water using a high-pressure device.
6. Store away from frost, temperature above 5 ° C.
